

FEATURES

- High density polyethylene (HDPE)
- Thermo-molded
- Fire-retardant version available
- UV-protected
- Highly resistant
- Recycle and recyclable
- 100% weatherproof

SPECIFICATIONS

- Colour: tobacco
- Dimensions of the leaf: +/-100 cm x 45 cm
- Thickness: 0.7 mm
- Weight: 310 g/leaf
- Packaging: +/-109 cm x 51 cm x 13 cm x 24 kg – 72 leaves/bundle
- Customs code: 39.21.19.90

INSTALLATION

- Africa leaves are to be laid on **an existing roofing** (wooden panels, metal sheets or shingles) or on **horizontal battens**. With this last option, leaves are visible from inside the building.
- Recommended pitch: minimum 30°
- Recommended spacing between rows of leaves: 14.3 cm = 7 leaves/m² with a pitch of 30° to 40° or 16.7 cm = 6 leaves/m² with a pitch of 41° and more.
- Double layer of leaves for the first row. Staggered layers of leaves on the top of each other.
- See installation guide for more details.
