Certified resistance up  
to 150 km / h.

## - Products -

## **RIO** (tobacco color) & **COCO** (white color)

Rio & Coco leaves are designed to be fixed on wood panels or any other finished siding. Ideal material for buildings equipped with indoor air conditioning. This model offers new solutions on various supports, such as, roofs to renovate, sheet metal or existing. These sheets are also available in fireproof version.

## **AFRICA**

Thanks to his reeds, our Africa leaves are designed to recreate a tropical atmosphere such as straw and thatch used traditionally. Ideal material for buildings equipped with indoor air conditioning. This model offers new solutions on different substrates, such as, roofs to renovate sheet metal or existing. These sheets are also available in fireproof version.

## **ALOHA** (tobacco color & white color)

Aloha leaves are suitable for direct attachment to the frame. They offer in one installation practice, two complementary technical solutions. An effective exterior cover obtained by a rail-mounted concept. An under-roof apparent aesthetic very popular and recognized in many countries. This whole concept provides exceptional resistance to bad weather and high winds. Also available in flame retardant version.

## RIO, COCO & AFRICA

Rio, Coco & Africa leaves are applied by stapling or nailing on finished siding such as sheet metal, plywood and wood. Packaged in packs of 72 sheets covering 10.30 m<sup>2</sup>  
Pack of 72 leaves - 98 cm x 64 cm x 15 cm — 25 kg.

## AFRICA : A MULTI-STYLE LEAVES

The Africa leaf refers to the reeds of Africa and Asia. By spacing the leaves during the pose, you will be able to obtain a different rendering. A leaf Africa offers you different looks: classical reeds or exotic reeds.

It's up to you, depending on the spacing.

## ALOHA (tobacco color & white color)

The visual appearance both inside and out offers an aesthetic appearance identical to traditional tropical roofs.

Packing is offered in a 72 sheet package covering 9 m<sup>2</sup> with standard fixing rails of approximately 3 meters in length .

Pack of 72 leaves - 98 cm x 64 cm x 15 cm — 25 kg.

*The definitive solution...*

Resistance, waterproofing, patented  
concept unique in the world.  
20 years warranty, maintenance  
free. Resistant to winds of 150 km / h  
UV protection.
